Thank you for the information

If my understanding is correct, the decision depends on SEPA, and not the agriculture minister ?

Tank you for your answer

Our SEPA is following the swedish law, which give them the right to order wolfhunt. Eskil Erlandsson / Lena Ek has not changed the law.

We know that Eskil Erlandsson have placed persons for his hunting interest in SEPA and they have just killed our gentik healt wolfcouple in Junsele. Ruona Burman the person how dised at SEPA is a close friend to Eskil: s party and she is placed there by him.

In the real life SEPA: s decisions are not free from Eskil: s interests - so please we need your help. You must understand that the swedish wolf have no chance whit this goverment and there statement i december that sweden only need 180 wolfs are just what the are working for this winter

Best Regards

Kristina Hallin & Charlotte Swanstein
